

# MX HomePro™

## Control Your Entertainment Plus Smart Home Devices

Turn your home into a smart home with MX HomePro™. This professionally-installed system delivers one-touch control of today's most popular entertainment and smart home products via remote control or mobile app. Control lights, thermostats, security cameras and thousands of Z-Wave® products, all with the touch of a button.

### SIMPLE, RELIABLE OPERATION

Engineered for ease-of-use and reliable operation, MX HomePro is ideal for today's on-the-go lifestyle. Control the system with a state-of-the-art URC remote control or convenient mobile app – while at home or away.

### SECURE, CLOUD-BASED TECHNOLOGY

Cloud-based technology facilitates secure access and cost-effective off-site programming. MX HomePro is installed by a trained URC dealer for worry-free set-up, upgrades and service – via smart device, no computer required.

### WORKS WITH POPULAR BRANDS

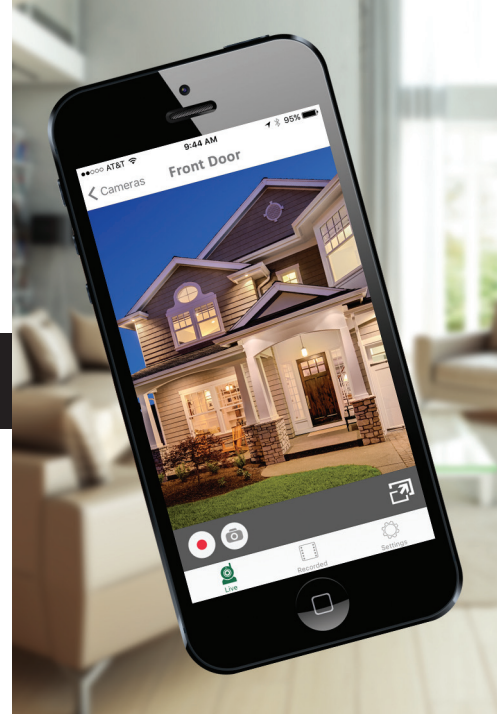

MX HomePro provides two-way system control and integration of TV, audio/video and smart home products. It is fully-compatible with Sonos®, HEOS®, Nest, Lutron®, Honeywell and other popular brands.

### CONTROLS Z-WAVE® PRODUCTS

Z-Wave Gateway controls readily-available Z-Wave products such as indoor/outdoor lights, thermostats, door locks and security devices such as motion detectors and surveillance cameras. Works with URC Vivido® lighting.

R500 Remote Control  
and H500 Smart Hub

Compact Smart Hub connects via Wi-Fi or Ethernet to control IR and IP devices.

Mobile App offers remote access for unlimited mobile devices at no additional cost.

Wi-Fi Remote Control features 2" color LCD, ergonomic design and premium performance.

Get started with Smart Hub and Mobile App for only \$299, professional installation required.

Expand to multiple rooms for additional entertainment and smart home control.

Ideal for single-family homes, townhouses, condominiums and apartments.

Customize your MX HomePro experience with the URC Smart Hub, Wi-Fi Remote Control and Z-Wave Gateway. Connect your favorite TV, audio/video and smart home products from today's most popular brands—available through your URC dealer. Expand to multiple rooms for additional entertainment and smart home control. Access your system remotely via the included MX HomePro Mobile App with access for unlimited mobile devices at no additional cost.
